

Policy and action plan for Bisca A/S regarding Oil palm products.

May 31, 2021

For its activities concerning: Production and selling of cakes, cookies and biscuits.

Bisca A/S only use RSPO Segregated (SG) certified oil palm products in own produced products.

We require our suppliers of traded product to be RSPO certified and supply palm oil products that are RSPO Segregated (SG) or as minimum Mass Balance (MB) certified.

As we are RSPO certified Segregated (SG), we support the work in preventing deforestation of the palm forests. Protect, conserve and enhance ecosystems and the environment.

Impact on people. Sustainable livelihoods and poverty reduction. Respect community and human rights and deliver benefits. Respect workers' rights and conditions.

Our goal is for our own produced products to be free of oil palm products by 2023.
